

# Population Pyramids & the Demographic Transition Model

For each of the following population pyramids:

- 1) Label which stage of the Demographic Transition Model you think it represents
- 2) Label whether it represents an Early Expanding, Expanding, Stable, or Contracting population

Then pick two countries (must represent two different stages of the DTM) and answer the following:

- 1) Describe the country's age and gender structure in words
- 2) Describe what its population is likely to do in the future
- 3) How wealthy are people in this country likely to be?
- 4) How healthy are they likely to be?

## Population Pyramid Handouts
